CHEMICAL & METALLURGICAL ENGINEERING

A Weekly Technical Newspaper, Being the Incorporation of Electrochemical and Metallurgical Industry and Iron and Steel Magazine

McGraw-Hill Company, Inc., New York City

Volume XXVII

From July 1 to December 31, 1922

GENERAL ALPHABETICAL INDEX

	PAGES
July 5	1 to 48
July 12	49 to 96
July 19	97 to 144
July 26	145 to 192
Aug. 2	193 to 240
Aug. 9	241 to 288
Aug. 16	289 to 336
Aug. 23	337 to 384
Aug. 30	385 to 480
Sept. 6	481 to 528
Sept. 13	529 to 576
Sept. 20	577 to 624
Sept. 27	625 to 672
Oct. 4	673 to 722
Oct. 11	723 to 770
Oct. 18	771 to 816
Oct. 25	817 to 862
Nov. 1	863 to 910
Nov. 8	911 to 960
Nov. 15	961 to 1008
Nov. 22	1009 to 1056
Nov. 29	1057 to 1104
Dec. 6	1105 to 1152
Dec. 13	1153 to 1200
Dec. 20	1201 to 1248
Dec. 27	1249 to 1286

A

Aberdeen ordnance test program 660
Abrasive, Corundum, artificial (P.) 273
Absorption:
——Increasing rate of (P.) 993
——Rate of flow affects (N.) 1210
——Tower (N.) 1210
——Properties of zeolite 1211
Abstracts, Engineering 10
Accelerated reactions in pulsating gaseous currents. Deschamps and Shadgen 1269
Accidents in mills and smelters in 1921 .. 937
Accounting—See also Cost Accounting
——And factory efficiency. Comer 417
——Chemical plant. Wadsworth 101
——Needs of technical men. Thornton .. 925

ACETONE:
——Market review 476
——Solvent for bitumens, asphalts and oils 651
——Solvent for mineral and rosin oils .. 751
——Solvent for nitro cellulose (B. P.) .. 994
——Solvent for varnish-gums, resins, etc. 693

ACETALDEHYDE:
——From acetylene (P.) 895, 1185
——Paraldehyde and metaldehyde equilibria. Danneel 216
——Process for formaldehyde (B. P.) 130
——Tariff rates 370
Acetylene:
——Mfr. acetaldehyde from (P.) 1185
——Products. Mfr. (P.) 895
——Purifying (B. P.) 755, 1186, 1233
——Recovery from other gaseous hydrocarbons (P.) 895

ACID:
——Acetic anhydride mfr. (P.) 1089
——Acetic, market review 476
——And phosphate data wanted 805
——Carboys, Closure problem 1207
——Concentration:
—— Cascade system (N.) 11
—— Dilute nitric. Carpenter and Babor 121
——Corrosion of Cr steels. Rawdon and Krynitsky 171
——Corrosion report 1072
——Fatty, Esters of (B. P.) 1138
——Hydrochloric:
—— Direct from H and Cl (N.) 12
—— New absorber (N.) 12
—— New vessel for absorption. Tyler .. 223
—— Comment. Laury. Tyler 340
—— Tyler 774
—— Tank cars (N.) 12
——Manufacture. Neglected ingredient. Zeisberg 457
——Mixed:
—— Distillation of. Zeisberg 1025
—— Production statistics 1002

ACID—Nitric:
—— Air bleaching of. Whitman and Evans 686
—— Bleaching (N.) 12
—— Distillation and concentration. Zeisberg 1025
—— Iron free (P.) 1232
—— Market review 476
——Oxalic. Tariff rate 1091
——Phosphoric:
—— Electric furnace production. Comment. Carothers 149
—— For fertilizer (P.) 225
—— Furnace method (N.) 13
——Picric for state roads 713
——Production statistics 1002
——Resistant material. Solubility of quartz packing (N.) 11
——Spent oxide used in British plants .. 197
——Sulphuric. See Sulphuric Acid.
——Tannic, plant for Fiji Island 663
——Tartaric
—— In Italy 198
—— Italian manufacturers merge 608
Aczol—an interesting wood preservative .. 509
Adhesives from starch (B. P.) 179
Adhesives research 1095
Adsorption a criterion of corrosion. Saklatwalla 647
Administrative efficiency, Measuring. Polakov 404
Advisory committee of War Department .. 1140
Aeronautics, Developments to be A.S.M.E. topic 949
Africa, Fertilizer industry in South 108
Agriculture:
——Chemists to meet 712, 1000
——Chemists meet 1047, 1092
——Farmers using picric acid 568

AIR:
——Compressed, as aid to production efficiency 412
——Conditioning:
—— And personal efficiency 449
—— At exposition 642
—— Importance in factories 1078
——Ionized for preventing static discharge. Jones 942
——Reduction Co. to manufacture in Birmingham 183
——Reduction Co.'s profits 282
Alby Co. collapse 331

ALCOHOL:
——A.C.S. committee secures government support 135
——Attempt to adopt uniform standard .. 229
——Dehydrating (B. P.) 1138
——Denatured. Doran 345
——Denaturing provisions 1278
——Dephlegmating column (B. P.) 179
——Dialkyl sulphates from (B. P.) 561
——Distillery in Canada 998
——For chemical engineer. Doran 345
——From ethylene (B. P.) 612
——From methane (N.) 594
——From Trent amalgams. Davis 1087
——Government regulation of (N.) 636
——Marketing and distribution problems. Tunison 471
——Motor fuel in England 726
——Ruling protested 1091
——Statistics for 1922 1280
——Tariff debate 613
——Varnish industry petitions for 1044
——Wheeler exposition address 629
A'dehyde, Butyric, mfr. (P.) 322
Alien property disposal would be investigated 38
Alkali market from jobbers' viewpoints. George 473
Alkali phosphates (B. P.) 1186
Allied Chemical and Dye active 282

ALLOYS:
——Aluminum 501
—— Bronze for French coins 893
—— Cu-Si tests (N.) 15
—— For casting 501
—— High strength (P.) 1042
—— Improving by aging 510

ALLOYS—*Continued:*
—— Mg 502
—— Molding practice 555
—— Si, Properties and mfr. Edwards .. 654
—— Zn 501
——Bearing. Tests on high-tin, Priestley. 928
—— Comment. Holz 106
——Brittleness of tinfoil (S.) 610
——Copper, Influence of iron (S.) 992
——Electrical properties at high temperatures (N.) 680
——Experimental furnace for 1085
——Ferro:
—— Beclouded by tariff. Bradin 472
—— Duty based on buyers' analysis 950
—— Electric furnace for. (S.) 1232
——Ferrosilicon, Corrosion of (N.) 595
——"Modification" of Al:Si. Curran ... 360
——No. 31 502
——Overstrain, internal stresses and creep. Jeffries and Archer 833
——Pure Fe:C:Mn 170
——Steel:
—— Endurance tests of 366
—— For airplane shafts. Kothny 1020
—— Forgings, Hair cracks in 803
—— High-silicon sheets (P.) 611
—— Importance of (S.) 992
—— Plant for Canada 35
—— Plants merge 762
—— Rapid sorting (S.) 992
——Titanium 1012
——Vacuum fused, of electrolytic iron with C and Mn (N.) 677
——White metal, A.S.T.M. standard (N.) 15

ALPHA CHI SIGMA:
——Exposition dinner 615
——Members will register at exposition . 327
——Plans dinner 517
——To banquet 278
——To reorganize alumni 182
Alum in tanning (P.) 945
Alumina:
——From clay, Miguet process (S.) 848
——Mfr. (B. P.) 755
——From impure ore (P.) 611
——Zirconia crucibles for steel analysis .. 638

ALUMINUM:
——Alloys:
—— For casting 501
—— High strength (P.) 1042
—— Improvement by aging 510
—— Polishing for metallographic study. Dix 1217
——Bronze:
—— Effect of iron (S.) 992
—— Etching 264
—— For French coins 893
——Bauxite deposits in Tennessee 564
——Chloride, mfr. (B. P.) 561
—— Method of cracking petroleum distillates (P.) 1041
——Coating on iron and steel (P.) 610
——Electrolysis with barium (B. P.) 612
——Furnace, Melting losses in, Correction 6
——Industry in Switzerland 177
——Mechanical properties, Effect of temperature etc. Jeffries and Archer. 747
——Melting in electric furnace (N.) 681
——From leucite (B. P.) 514
——Physical tests (N.) 14
——Plating (P.) 610
——Polishing for metallographic study. Dix 1217
——Products in 1921 1164
——Protective coatings for 349
——Silicon alloys, "Modification" of. Curran 360
——Silicon alloys, Properties and mfr. Edwards 654
——Tariff rates 375
Al Uminum, You know me 652
American Association for Advancement of Science program 1240

AMERICAN CERAMIC SOCIETY:
——Canadian meeting 486
——Chicago section:
—— Annual meeting program 996
—— Annual meeting 1238

(P), (B. P.)—United States and British patents respectively; (S.)—Synopsis;
(N.)—Papers read at society meetings but not printed in full.

AMERICAN CERAMIC SOCIETY—*Continued:*
——— Danville meeting ... 86
——Exposition program ... 518
——Exposition meeting ... 634
——Joint meeting, Eastern section with clayworkers ... 947
——Plans summer excursion ... 35
——Summer meeting plans ... 227

AMERICAN CHEMICAL SOCIETY:
——Alcohol committee secures government support ... 135
——Chemical Education Section, Pittsburgh ... 583
——Committee denied interview with Harding ... 181
——Committee invites criticism of society policies ... 658
——Co-operates with Petroleum Institute on fuel problems ... 807
——Council announces $25,000 prize ... 567
——Council meeting, Pittsburgh ... 580
——New laboratory at Yale to be dedicated at spring meeting ... 900
——Pittsburgh meeting:
——— Plans ... 88
——— Preliminary program ... 132
——— Meeting:
——— Council meeting ... 580
——— General meetings ... 581
——— Cellulose Section ... 582
——— Chemical Education Section ... 583
——— History of Chemistry Section ... 584
——— Division of Fertilizer Chemistry ... 585
——— Division of Sugar Chemistry ... 586
——— Division of Physical and Inorganic Chemistry ... 586
——— Leather Section ... 588
——— Section of Gas and Fuel Chemistry ... 589, 648
——— Division of Petroleum Chemistry ... 590
——— Division of Industrial and Engineering Chemistry ... 591
——— Rubber Division ... 595
——— Dye Division ... 596
——— Smoker, You know me, Al Uminum ... 652
——— Ohio State chemists at meeting ... 661
——National elections ... 1278
——Planning 1923 meeting ... 88, 1237
——Spring 1923 meeting, Committee chairmen ... 900
——To educate legislators in chemistry ... 808
——Will pass on papers before meeting ... 908

AMERICAN ELECTROCHEMICAL SOCIETY:
——Baltimore electrochemists organize ... 135
——Co-operates with Bureau of Mines on research ... 947
——Electrodeposition symposium (N.) ... 676
——Montreal meeting:
——— Plans ... 374
——— Program ... 515
——— Report ... 676
——Moves to N. Y. ... 35
——New York meeting:
——— Plans ... 374
——— Program ... 1093
——New York section hears of Burma ... 1040
American Engineering Council to meet ... 1140
American Engineering Standards Committee:
——Code for conveyors ... 36
——Conference on numbering steel ... 1046
——Numbering of steels referred to ... 1235
——Significance of standardization ... 447
American Foundrymen's Association:
——Directors organize ... 997
——Will co-operate with French ... 997
American Gas Association, Atlantic City meeting ... 920

AMERICAN INSTITUTE OF CHEMICAL ENGINEERS:
——Dinner plans ... 276
——Dinner ... 614
——Election ... 1204
——Headquarters at exposition ... 565
——Niagara Falls meeting ... 8
——Oppose licensing ... 1236
——Report of dinner ... 614
——Richmond meeting:
——— Program ... 1043
——— Meeting ... 1204
——To banquet during exposition ... 519
——To establish student chapters ... 760
——To survey college courses ... 759
American Institute of Mining and Metallurgical Engineers:
——Plans for Frisco meeting ... 182
American Iron and Steel Institute:
——Alloy steel production figures (S.) ... 992
——New York program ... 760
——Semi-annual meeting, N. Y. ... 867
American Metric Association meeting plans ... 1279
American Mining Congress
——To organize southern division ... 567
American Peat Society meeting ... 324
American Petroleum Institute:
——Co-operates with A.C.S. on fuels ... 807
——Meets ... 1190
American Railway Association standardization work ... 448

AMERICAN SOCIETY OF MECHANICAL ENGINEERS:
——Committee chairmen ... 949
——Convention report ... 1188
——Management week ... 853
——Plans engineering museum ... 327
——Plans N. Y. meeting ... 949
——Symposium on waste-heat boilers ... 267
——To meet at power show ... 850
American Society for Testing Materials:
——Atlantic City (June) meeting ... 14
——Committee work on conductivity of refractories. Hull ... 538
——Discussion on failure of paint and varnish on exposure (N.) ... 551
——Nitrate explosives. Cavalier ... 692

AMERICAN SOCIETY FOR STEEL TREATING:
——Classes in heat-treating ... 1000
——Detroit meeting:
——— Plans ... 372
——— Program ... 567
——— Meeting ... 727
Amines, aromatic (B. P.) ... 1187

AMMONIA:
——Canadian plant to resume operation ... 1278
——Oxidation (N.) ... 12
——— By catalysis, (P.) ... 1137
——— Process (B. P.) ... 755
——— Work of Sheffield Experiment Station, Curtis ... 699
——Soda process (P.) ... 995
——Stills (N.) ... 157
——Synthetic. Mfr. N and H for (N.) ... 12
——— Drying N and H (P.) ... 1274
——Synthesis, summary of work on ... 1235
Ammonium
——Sulphate mfr. (B. P.) ... 756
——Sulphate, Market review ... 477

ANALYSIS:
——Commercial lime. Holmes and Fink ... 348
——N in iron and steel (S.) ... 944
——Of coal, Study of (S.) ... 757
——Of metals for gas. Simons ... 248
——Of refined lead. French ... 219
Aniline, Market review ... 479
Annatto industry in Latin America. Wilson ... 600
Anodophoresis, definition. Ralston ... 778
Anthraquinone mfr. (B. P.) ... 179
Antimony
——Effect on bearing metal. Priestley ... 928
——Industry of Hunan, China ... 1024
Appleby bill, Will support ... 374
Ardeer, Visit to. Hendrick ... 297

ARSENIC: See also Calcium Arsenate
——Market review ... 477
——Market situation ... 185
——On free list ... 323, 375
——Shortage, Facts and figures on ... 1241
——Situation clarified by conference ... 1234
——Tariff burden discussed ... 229
——Tariff causes Senate flurry ... 183
——To investigate scarcity ... 1141
——Will survey situation ... 1191
Art and science in leather mfr. Seymour-Jones.
I—Flaying, curing, etc. ... 1110
II. Preliminary wetwork ... 1253

ARTIFICIAL SILK:
——Cellulose acetate (B. P.) ... 561
——Developments in Britain ... 726
——Industry, Italian ... 871
——Industry, Schlatter ... 533
——Patents, Schlatter ... 537
——Process (B. P.) ... 561
——Setting bath (B. P.) ... 896
——Spinning solution (B. P.) ... 994, 1274
——Vegetable extract in precipitation bath (B. P.) ... 1090
Asbestos roofing, mfr. Finley ... 800

ASPHALT:
——In waterproofing and in paints. Finley ... 802
——Petroleum, in roofing and waterproofing. Finley ... 798
——Production from petroleum. Finley ... 800
Association of Iron and Steel Electrical Engineers:
——Stansfield to address Cleveland section ... 709
Association of Official Agricultural Chemists:
——Meeting plans ... 712, 1000
——Meeting ... 1047, 1092
Aston wins Nobel prize ... 1142
Atlas dividend ... 521
Atmospheric nitrogen—See Ammonia
Atmospheric pollution
——By SO_2 (N.) ... 11
——Developments in France. Negru ... 1069
——Litigation held in abeyance ... 181
Australian power project ... 713
Australia, Tanning investigations in ... 761
Automatic equipment and chemical control. Montgomery ... 150
Automatic process control symposium A.C.S. (N.) ... 591
Automatic process control (N.) ... 851
Automobile, How much steel in ... 30
Automobile—See Motor Fuel
Automotive industry, steel requirements ... 868

B

Badische plants closed by strike ... 1239
Bake ovens. Comment. Sandstrom ... 1060
Baking capacity of flour. Dunlap ... 174, 934
——Comment. Nasmith ... 1262
Barium:
——Chloride, market review ... 477
——Chloride from black ash waste (P.) ... 1089
——Fused, in Al electrolysis (B. P.) ... 612
Barrel tipping device, Potts ... 78
Barrels:
——Handling sugar. Montgomery ... 779
——Wooden, for chemicals ... 1231
Barytes, tariff rates ... 375
Batteries:
——Dry cells, Electrical characteristics of. Vinal and Ritchie ... 550, 603
——Storage, for locomotives. Todd ... 554
——— Stotrage, Method of determining the rate of sulphation of storage battery plates. Vinal and Riitchie 1116
Bauxite:
——New development in Tennessee ... 564
——Titanium from (B. P.) ... 896
Bayer complaint dismissed ... 1047
Bearing metal:
——High-tin, Tests on. Priestley ... 928
——— Comment. Holz ... 1061

Bearing Metal—Continued:
——Tin base, new standard ... 324
Belgian:
——Artificial silk industry ... 746
——Cement makers dominate market ... 998
Belgium, Industrial status. Negru ... 917
Bentonite, Use for de-inking newspaper ... 744
Benzanthrone, derivatives (B. P.) ... 946

Benzene:
——Market review ... 480
Benzoic acid, New standard ... 324
Benzol, poisoning, its occurrence and prevention. Horan ... 605
Benzol denaturant ... 1278
Beryllium, extraction (P.) ... 656
Bessemer medalist (Honda) ... 196
Beta naphthol. Market review ... 480
Birds' preserve doomed ... 661
Bismuth. Effect of, in lead. French ... 219
Bisulphites, Reducing to hyposulphites (B. P.) ... 130
Black ash, $BaCl_2$ from (P.) ... 1089
Black fractures in carbon tool steels. Green ... 265
——Comment:
——— Emmons ... 484
——— Green ... 485
——— Honda ... 914
——— Johnson ... 484
——— Mathews ... 484
——— Schwartz ... 774
Blast furnace practice, Principles of ... 1037
Blast furnace 130 years old ... 999
Blasting, Comminuted smokeless for (S) ... 848

BLEACHING:
——Earths (B. P.) ... 130
——Oil with ozone (N.) ... 850
——Process (B. P.) ... 706
——Powder:
——— Corrosive action of. Young and Peake ... 974
——— Desulphurizing gasoline with, (B. P.) ... 1186
——— For sweetening gasoline. Young and Peake ... 972
——— Market review ... 477
——— Rendering stable (B. P.) ... 656
——— Stabilizing (B. P.) ... 946
——— Tariff discussion ... 616
Blue gas for heating coke oven. O'Malley ... 75
Boiler Plate:
——After cold-work or work at blue-heat. French ... 211
——Effect rate of loading on tensile properties. French ... 309
Boilers:
——Electric (N.) ... 681
——Flue gas testing ... 1070
——Introducing Kestner, in Britain ... 198
——Waste heat ... 267
Boiling point, change in, due to drying. Hendrick ... 544
Boll weevil, Fighting from air ... 567

BOOK REVIEWS:
——33, 34, 80, 81, 82, 83, 128, 129, 178, 319, 368, 369, 511, 512, 559, 560, 610, 707, 756, 894, 933, 1041, 1089, 1139
——Aitchinson. Engineering Steels ... 560
——Batson and Hyde. Mechanical Testing ... 178
——Beilby. Aggregation and Flow of Solids ... 319
——Bingham. Fluidity and Plasticity ... 610
——Brooks. The Chemistry of the Non-Benzenoid Hydrocarbons ... 559
——Brown. The Lead Storage Battery ... 756
——Byers. An Outline of Qualitative Analysis of Inorganic Substances, Including the Rare Elements ... 82
——Chamot. Elementary Chemical Microscopy ... 33
——Church. Manufacturing Costs and Accounts ... 80
——Clay Products Cyclopedia ... 1089
——Cornubert. Dictionnaire Anglais-Francais-Allemand de Mots et Locutions Interessant la Physique et la Chimie ... 894
——Cronshaw. Oil Shales ... 34
——Cross, Roy. Handbook of Petroleum, Asphalt and Natural Gas ... 1183
——Deerr. Cane Sugar ... 81
——Elements of Industrial Heating ... 756
——Falk. Catalytic Action—Catalysis, With Special Reference to Newer Theories of Chemical Action ... 512
——Foerster. Elektrochemie Wasseriger Losungen ... 319
——Gow. The Electrometallurgy of Steel. 895
——Grasser. Synthetic Tannins: Their Synthesis, Industrial Production and Application ... 757
——Guertler. Metallographie ... 320
——Hackspill. L'Azote. La Fixation de l'Azote Atmospherique et son Avenir Industriel ... 1041
——Hall, John Howe. The Steel Foundry 1183
——Hanneman "Hütte." Taschenbuch für Eisenhüttenleute ... 178
——Hart. A Textbook of Chemical Engineering ... 757
——Hendricks' Commercial Register of the United States for Buyers and Sellers 129
——Hofman. Metallurgy of Zinc and Cadmium ... 511
——Holmes, Harry N. Laboratory Manual of Colloid Chemistry ... 1183
——Ibbotson. Analysis of Non-Ferrous Alloys ... 894
——Journal of the Institute of Metals ... 560
——Journal of the Iron and Steel Institute 1139
——Korzybski. The Manhood of Humanity: The Science and Art of Human Engineering ... 80

(P), (B. P.)—United States and British patents respectively; (S.)—Synopsis;
(N.)—Papers read at society meetings but not printed in full.

BOOK REVIEWS—*Continued:*
——Liddell, Donald M. Handbook of Chemical Engineering.
——Loeb. Proteins and the Theory of Colloidal Behavior 368
—— Comment:
—— Alexander 821
—— Wilson 628
——Locke, John F. A Handbook for Electrotypers 1139
——Mellor. A Comprehensive Treatise on Inorganic and Theoretical Chemistry 129
——Methods of the Chemists of the U. S. Steel Corporation for the Sampling and Analysis of Pig Iron..... 1089
——Mills. Within the Atom 129
——Mineral Industry During 1921..... 993
——Norris. The Principles of Organic Chemistry 368

——Photography to feature meeting.... 1093

SOCIETY OF CHEMICAL INDUSTRY—*Continued:*
——Visit to Nobel plant at Ardeer. Hendrick 297
Society of Industrial Engineers:
——Management week 853
——To meet in New York 134
——New York program 564
——N. Y. convention 849
——Ninth convention 869
Soda:
——Ash. Market review 478
——Caustic in Germany (N.) 631
Soddy wins Nobel prize 1142

SODIUM:
——Bichromate. Market review..... 479
——Ferrocyanide. Market review 479
——Hydroxide. Market review 479
——Hydroxide, Soviet purchases 563
——Nitrate—See Chilean nitrate.

SOIL:
——Absorption, investigation of. (S.)... 1139
——Colloids. Influence of (N.) 585
——Improvement research 951
——Improvement boosted by fertilizer association 999
——Physico-chemical problems. (S.).... 128
Solubilities of TNT 937
Solvent:
——Action of furfural 363
——Properties of acetone 651
——Recovery of (P.) 322
—— Washer for insoluble powders (P.) 1137
South, Chemistry in, Ransdell (N.)..... 630
Spanish trade in chemicals 1171
Specific gravity of petroleum products... 215
Springs, Strengthening by overstrain.... 503
Stabilizer for nitrocellulose (P.) 561
Stainless steel for chemical plant..... 532
Standard Oil Co.:
——Called monopoly 135
——Stock dividend 1097

STANDARDIZATION:
——A.C.S. symposium (N.) 636
——Analytical methods attempted 1000
——Bureau of Standards efforts..... 1235
——Containers 1000
——Efforts of Department of Commerce.. 1000
——Enameled apparatus for chemical purposes. Poste 1016
——Explosives industry. Norman..... 458
——Fertilizer industry. Lodge 458
——In feldspar industry 947
——Industrial in Germany 372
——Of fertilizers 951
——Needs in paint and varnish industry Holley 463
——Paint industry (N.) 1044
——Progress in fertilizers 1141
——Pulp and paper 461
——Refractories. Purdy 637
——Thermometers 638
——Will increase production efficiency of chemical industries 447
Stanley patent bill. Comment. Keyes... 52
Stansfield to address iron and steel engineers 709
Starch:
——Adhesive from (B.P.) 179
——From wheat flour (B.P.) 755
——Setting bath for viscose (B.P.).... 896
Static electricity, an explosion hazard in lime-sulphur mfr. Edwards..... 986
Static electricity, Method of preventing explosions due to. Jones 924
Steam:
——Consumption in evaporation. Webre. 1073
——Generator, electric (N.) 681
——For power and process in chemical industries. Reynolds 407
——Use of, in coal-gas retorts 1164
Steatite in zirconia refractory (P.)..... 321
Steel—See also Iron and Steel.
Steel, How much in auto 30
Steel. Numbering 1046
Stirrer performance. Measurement of. Wood, Whittemore and Badger.... 1176
Stock dividend, significance 1097
Stratton chosen head of M.I.T..... 805
Straw for fertilizer 711
Strengthening springs by overstrain..... 503

SUGAR:
——Beet, Industry needs research. Dahlberg 463
——Clarifiers, Petree and Dorr exposition booth 642
——Cuban mill breaks record 950
——Division A. C. S. Pittsburgh..... 586
——Industry (beet) in Germany crippled. 950
——Industry, Labor in..... 1067
——Material handling problem in industry. Montgomery 779
——Native industry in China. Richardson 105
——Refiners protest tariff rates 1140
——Refinery, Washington chemists visit. 1142
——Research by Bureau of Chemistry... 1275
Sulphite process—See Paper.
Sulpite cellulose (B.P.) 514

SULPHUR:
——American competing with Italian.... 661
——Burner, At exposition 640
——Colloidal. Preparation of (B.P.).... 514
——Dioxide:
—— For leaching Cu ores 989
—— Fume problems (N.) 11
—— From smelter smoke (P.)..... 321
——Dust explosions. Edwards 986
——Export Association 758
——Freight rates protested 227
——Gases, Recovery of (P.)..... 33
——Industry in Italy 6
——Industry, Marketing problem. Wolf.. 329
——Market review 479

SULPHUR—*Continued:*
——Recovery from gangue (B.P.)..... 755
——Removal from illuminating gas..... 1136
——Solidifying in mining (P.)..... 1186
——Trioxide as sulphonating medium (P.) 656
——Uses, distribution problems. Wolf... 329

SULPHURIC ACID:
——Ammonia oxidation equipment for chamber plants 197
——Boiling point. Zeisberg 22
——Causes of failure of lead. French.. 220
——Chamber plant (B.P.) 656
——Chamber plant for Buenos Aires.... 951
——Concentration:
—— Behavior of lead in pans. French. 221
—— Cascade system (N.) 11
—— In oil refineries. Skinner..... 734
—— Salvaging units (S.) 944
—— Thermal considerations in. Zeisberg. 22
——Heat of dilution. Zeisberg..... 23
——Heat of vaporization. Zeisberg..... 23
——Leaching Cu ores 989
——Market review 476
——Mfr. in Chile..... 341
——Niter recovery (P.) 1186
——Partial pressures of vapors. Zeisberg. 23
——Plant in India 133
——Plants. Causes of failure of lead in. French 220
——Production statistics 1002
——Quartz packing for Glover tower (N.) 11
——Recovery in oil refineries. Skinner.. 734
——Recovery of nitric oxides (P.)..... 1186
——Specific heat. Zeisberg 23
——Thermal considerations in concentration. Zeisberg..... 22
——Treatment petroleum products. Von Bibra 66
——Treatment of petroleum (P.) 322
——Vanadium catalyst for (P.)..... 1185
Superphosphate, Handling (S.) 31
Suspensions, Factors influencing settling. Holmes, Fink and Mathers..... 1214
Surgical suture, new..... 1093
Swain chosen for Chandler award..... 1045
Sweden:
——Electric pig iron in 249
——Match industry expands..... 1092
——Paper industry in 979
——Wood pulp production in 744
Switzerland:
——Aluminum industry in..... 177
——Economic situation in..... 1070
Synopsis of Recent Chemical and Metallurgical Literature, 31, 79, 128, 271, 321, 510, 558, 609, 705, 757, 847, 895, 944, 990, 1139, 1187.
Synthetic organic chemical interests plan tariff appeal 758
Synthetic Organic Chemical Manufacturers Association:
——Consider tariff effects 808
——Exposition meeting 630
——Pledge support to new chemical division 326

T

Tables and charts for natural gas users. Anderson 1039
Tacoma chemists active 19
Tank cars for Cl and HCl (N.)..... 12
Tanks:
——Calibration of (N.) 156
——For storing volatile hydrocarbons (P.) 225
——Storing turpentine in 783
Tanktred, portable loader 803
Tanning—See Leather.
Tantalum:
——Metallic 704
——Production and uses. Balke 1271
——Use in H_2O_2 mfr. (B. P.)..... 994

TAR:
——Binders in electrode mfr. Mantell.... 164
——Distillation (P.) 370
——Distillation (N.) 158
——Low-temperature, and its evaluation (N.) 923
——Recovery from byproduct coke-oven gas. Washburn and Muns..... 119

TARIFF:
——Administration, Personnel insufficient. 708
——American valuation for dyes..... 324
——Anti-dumping clause kills Fe_2O_3 imports 376
——Arsenic discussed 229
——As on free list 323
——Basis of ferro-alloy duties..... 950
——Bill prohibits imports of U. S. trade-marked goods 376
——Blackstrap muddle adjusted 995
——Calculation of American valuation.. 900
——Changes boost chemical items 371
——Chemical schedule protested..... 995
——Chronology 664
——Commission:
—— Contemplates new survey of chemical schedules 1275
—— Detail of organization 899
—— Needs chemical experts 760
—— Proposed expansion 758
—— Reorganized 899
—— Revised rules of procedure 899
—— Survey of arsenic situation.. 1191, 1234
—— To compile coal-tar statistics..... 1191
——Conferees progress 517
——Danger to commission seen in bill... 563
——Dyes and potash stumbling blocks. 613
——Dye, attacked by Demming..... 565
——Dye embargo:
—— Back in bill 563
—— Dies hard 658
——Dye standards delayed 1238
——Effect on business 714

(P), (B. P.)—United States and British patents respectively; (S.)—Synopsis;
(N.)—Papers read at society meetings but not printed in full.

TARIFF—*Continued:*
——Effect on Europe. Hodson 964
——Few changes likely under elastic provisions 995
——Flaws crop out 804
——Flexible provisions 371
——Free port provision included 374
——French, on dyes 933
——Hearings, Procedure for 899
——Metals schedule 375
——Mets voices opposition 229
——More jokers come to light 948
——More rate change applications 1091
——Paper logs 948
——Sugar rates protested 1140
——Summary and probable effect on chemical market 664
——Synthetic chemical interests plan appeal 758
——S.O.C.M.A. considers effects 808
——Will appeal for changes 708
——Wood pulp on free list 374
Taylor Society meeting 1142
Taxes in U. S. 1097
Tearing tests on metals. Heathcote and Whinfrey 310
Technical Association of the Pulp and Paper Industry:
——Exposition program 228
——Exposition meeting (N.) 632
Technical:
——Men, Accounting needs of. Thornton 925
——Men as executives. Derick 425
TECHNICAL PHOTOGRAPHIC AND MICROSCOPICAL SOCIETY:
——Announces exposition program 327
——Appoints committees 518
——Exposition booth 643
——Exposition meeting 632
——Joint meeting 1093
Technical press, Role of. Hamer 915
Technology of the carbon electrode industry. Mantell:
——I History of development 109
——II Raw materials 161
——III Calcination 205
——IV Grinding, mixing, molding, extrusion 258
——V Baking and furnaces 312
——VI Cleaning, testing, machining and shipping 353
—— Correction. Mantell 340
—— Comment. Sem 820
Tellurium and uses (S.) 847
Temperatures. Calculation of theoretical maximum. Brown 497
Temperature control, Enameled equipment. Poste 1019
Tennessee Coal, Iron & R.R. Co. announces expansion 231
Testing device for weighing galvanized coatings 797
Tests on high-tin bearing metals. Priestley 928
——Comment. Holz 1061
Tetryl and tetranitraniline, Hygroscopicit of. Marsh 1261
Textile production figures 1193
Therapy Institute planned 277
Textile production figurds 1193
Thermal:
——Standard for gas established 711
——Conductivity of refractories. Hull 538
Thermit:
——Welding cast iron with 608
——Welds, Groove inspection of. Deppeler 846
Thermo-electricity 754
Thermometer standardization, Canadian government 638
Thomson presented with Franklin medal 231
Thymol, synthetic 1275
Tiering machine. New use for. Potts 78
Time cards, Graphical studies. Blekey 1259

TIN:
——Bearing metals, tests on. Priestley 928
—— Comment. Holz 1061
——Electrolytic refining (P.) 656
——Foil, Brittleness of (S.) 610
——Grain structure and mechanical properties. Jeffries and Archer 789
Titanium:
——Alloys, commercial 1012
——Catalyst for hydrocarbons (B. P.) 707
——From bauxite (B. P.) 806
——Pigment (P.) 1232
TNT, Solubilities of 937
Tobacco industry (A. I. C. E.) 1205
Tools:
——New pipe wrench 367
Tower absorption (N.) 1210
Tower absorbers, etc., Accelerated reactions in. Deschamps and Shadgen 1269

TRADE ASSOCIATIONS:
——Correlate research 900
——Cost studies legitimate 1281
——Feldspar industry needs 900
——Need in feldspar industry recognized 947
——Salt producers restrained from price fixing 136
——Will aid coal commission 997
Trademarks:
——What are they? Discussion. Gustin 1130
——What's in a name? Gustin 342
——Import prohibited of goods bearing 376
Tradition, Why not get away from it? Comment. Sandstrom 1060
——Comment. Nasmith 1252
Trent amalgams, Alcohol from. Davis 1087
Trend of production in chemical and allied industries 280
Truck:
——New electric 127
——Tiering 367
Tubular evaporator (P.) 896

TUNGSTEN:
——Cold drawn, physical properties. Jeffries and Archer 888
——Domestic industry slack 1094
——Electrolytic reduction of ores (B. P.) 946
——Filaments, Uranium in (B. P.) 1187
——From complex tungstic acid. (B. P.) 1138
——Grain structure and properties. Jeffries and Archer 789
——Purification instruction planned 1143
——Recovery of WO_3 from ores (P.) 33
——Trioxide from ores (P.) 373
——Wire, drawing (B. P.) 1090
Turpentine—See also Naval stores.
——Adulteration of 1275
——Concern cited 762
——Production, consumption and prices 570
Twelve-hour shift. Wadsworth 1063

U

U. S. Department of Agriculture:
——Exhibits 655
U. S. Chamber of Commerce:
——Chemical Commodity Division:
—— Functions of. De Long (N.) 631
—— Manufacturing chemists will aid 518
—— S.O.C.M.A. supports 324
——Standardization efforts 1000
——Survey of coal situation 807
U. S. Geological Survey:
——Compiling coke statistics 1000
——Smith resigns 997
Ural platinum mines 971
Uranium in tungsten wire (B.P.) 1187
——From cyanamide (P.) 1233, 1235
Urea mfr. from NH_3 and CO_2 (B. P.) 994
Utilization of waste 267

V

Vacuum evaporation 1073
Vanadium, Utilization of iron ores containing (S.) 321
Vanadium industry 1094
Vanadium:
——Catalyst (P.) 1185
——Use of iron ores containing. (S.) 321
——Iron alloy in electric furnace (P.) 1232
Vanillin, electrolytic production (N.) 683

VARNISH:
——Acetone as solvent for resins, etc 603
——Company restrained 949
——Composition (P.) 325
——Failure on exposure 551
——Makers meet 1044
——Mfr. Use of furfural 362
——Printing ink. Anstead 304
——Synthetic resins for (B. P.) 1042
Vegetable extracts, tariff rates 375

VEGETABLE OILS:
——Bleaching with ozone (N.) 850
——Chilean industry 341
——Cottonseed production figures 282
——Extracting (B. P.) 33, 514, 612
——Flaxseed situation 1044
——German industry 931
——I. C. C. rules on linseed oil meal 568
——Industry:
—— Research program of. Tolman 466
—— Labor in 1067
——Inhibiting oxidation (B. P.) 612
——Knowing requirements of consumer. Perry 470
——Linseed for ink. Anstead 304
——Mfr. soya bean oil (B. P.) 562
——Markets, 2nd quarter 1922 80
——New sources for 177
——Peanut oil industry as source of by-products (S.) 609
——Production in western China. Richardson 1032
——Rubber, substitute from 753
——Tariff discussion 616
——Ultra filter press for. Kenney 1084
——Used in margarine, Denmark 1040
——Volume of business 712

Ventilation:
——And personal efficiency. Carrier 449
——Applied to dust and fume removal. Nichols and Ellis 540
——Importance in factories 1078
Ventilating system pays dividends 414
Viscose mfr. (B. P.) 561, 1138
Vitamine content of canned foods (S.) 559
Vitrefrax plant destroyed 850

W

WAGE:
——Increase and inflation 714
——Living. What is it? 424
Wages. Emerson 400
Wages and hours of labor in petroleum industry 90
War Department appoints advisory committee 1140
——Washer for insoluble powders (P.) 1137
Washington Chemical Society:
——Meeting 851
——Elects 1000
——Visits sugar refinery 1142
Waste heat boilers 207

WATER:
——Pollution
—— Bill passed 568
—— Demand action on 374
——Power.
—— Act to be defended 950
—— Development at Muscle Shoals 274
——Purification for beverages. Montgomery 150
——Softening. New artificial zeolite 1211
——Supply would be studied by hydraulic lab 326
Wax:
——Artificial from lignite (B. P.) 946
——Candelilla, in Mexico 919
Weighted index ..40, 89, 137, 185, 232, 280, 329, 377, 475, 520, 569, 617, 664, 714, 763, 809, 855, 902, 952, 1001, 1049, 1097, 1144, 1193, 1241, 1280
Weighting factors for index numbers 138

WELDING:—See also Iron and Steel, Welding.
——Cast iron with thermit 608
——Copper by arc. Candy 1036
——Electric by a.c. 712
—— Comment. Holslag 866
——Gas in steel for 1179
——Groove inspection of thermit. Deppeler 846
What's in a name? Gustin 342
Wheels, chilled iron 893
Whiting industry, Production costs in during 1914, 1921, 1922 938
Why not get away from traditions? Comment. Sandstrom 1060
——Comment. Nasmith 1252
Wire drawing (B. P.) 1090
Wire, patenting process for 1129

WOOD:
——Barrels, for chemicals 1231
——Conservation promised by de-inking process 744
——Density in paper making. Bragg 794
——Distillation:
—— In 1921 1262
—— Industry in Chile 341
—— Reluctance to use technology. Root 464
——Photomicrography in study (N.) 634
——Preservative.
—— Aczol 509
—— By-products tried for 736
—— Gunite 1216
——Pulp:
—— On free list 274
—— Papyrus (B. P.) 312
—— Production and sales in Sweden 744
—— Production in 1921 1175
——Quebracho becoming scarce 898
——Steamed ground. Bragg 793, 842
——Tariff on logs 948
——Use of in chemical manufacturing (N.) 1207
Wool:
——Fat, Purification (B. P.) 562
——Scouring, To study by-products from 949
Wrench, Pipe 367

X

Xylenes, Decomposition of. Bradley and Parr 737

Y

Yale:
——New laboratory 900
——Students to visit exposition 519
——Students at exposition. Comment. Read 914
Yield, Calculating plant. Wadsworth 102
You know me, Al Uminium 652

Z

Zeolite, New artificial 1211
ZINC:
——Chloride:
—— Tables 759
—— Volatilization 916
——Determination on galvanized iron 797
——Effect on bearing metal. Priestley 928
——Electric smelting furnaces (P.) 322
——Electrolytic:
—— Effect of impurities. Comment. Hansen 100
—— Effect of impurities (N.) 677
——German market for 832
——Grain structure and physical properties. Jeffries and Archer 789
——Oxide:
—— Effect of in rubber vulcanization (N.) 595
—— Subdivision of (N.) 1239
——Rapid test of galvanizing (N.) 15
——Removing from brass (N.) 678
——Smelting, Refractories for (S.) 895
——Sulphide ores for H_2S mfr. (P.) 1185
Zirconia refractory (P.) 321

(P), (B. P.)—United States and British patents respectively; (S.)—Synopsis;
(N.)—Papers read at society meetings but not printed in full.
